1 R Markdowns

this will be blockquote, on doing what i do not knw, but i seem to know what is wrong. i cannot remember

something blue This is an R Markdown document. Markdown is a simple formatting syntax for authoring HTML, PDF, and MS Word documents. For more details on using R Markdown see <http://rmarkdown.rstudio.com>.

When you click the **Knit** button a document will be generated that includes both content as well as the output of any embedded R code chunks within the document. You can embed an R code chunk like this:

```
summary(cars)
```

```
##      speed      dist
##  Min.   : 4.0    Min.   :  2.00
## 1st Qu.:12.0    1st Qu.: 26.00
##  Median :15.0    Median : 36.00
##   Mean  :15.4    Mean   : 42.98
## 3rd Qu.:19.0    3rd Qu.: 56.00
##   Max.  :25.0    Max.    :120.00
```

2 Including Plots

You can also embed plots, for example:

Note that the `echo = FALSE` parameter was added to the code chunk to prevent printing of the R code that generated the plot.

3 A New Output Format2

Placeholder

3.1 New Styles

3.2 Your Familiar Tools

3.3 Stay Tuned

4 A New Output Formats3

Placeholder

4.1 New Styles4

4.2 Your Familiar Tools5

4.3 Stay Tuned55
